## Section II: Court type, Participants, and Enhancement

Below is the FY 2021-2022 funding level formula. The SAFG funding award to each collaborative court is based on the program focus category and the number of total participants. This amount is then added to the base amount.

In the following page, you will input the number of participants for your collaborative courts as well as whether they are treatment (Tx) or non-treatment/education (Ed). If you are a court that is seeking to increase the number of participants your collaborative justice court

serves, you can qualify for enhancement funding as long as your court is increasing its capacity by 10 or more clients. You will indicate whether your court is applying for enhancement funding in column 3 and the increased capacity in column 4. Afterwards, your totals are calculated and a maximum eligible funding amount is generated based on the below formula.

**Caseload Based Funding-Level Formula**  
**2021-2022 Judicial Council Collaborative Justice Courts Substance Abuse Focus Grant Program**

**Funding

## SAFG & DDC Background Information

### SUBSTANCE ABUSE FOCUS GRANT (SAFG)

As part of the **Budget Act of 2021**, the Legislature has allocated **\$1,174,000** to the superior courts to maintain, expand, or enhance collaborative courts. Non-competitive grants will be made available through a Judicial Council approved formulaic distribution available to all 58 local courts. Grant requirements are the same as FY 2020-21. Final award amounts are contingent on approval by the Judicial Council.

### Key Information

- All California superior courts operating at least one collaborative court[i] are eligible to apply.
- Grant awards will **range between \$12,000 and \$45,000** per superior court with the total amount being based on the number of collaborative courts, participants and available funding.
- Courts seeking to increase the number of participants their collaborative justice court serves can qualify for enhancement funding, as long as the court is increasing its capacity by 10 or more clients.
- Local superior courts also can apply for collaborative court programs that are developed in conjunction with tribal courts.
- Grant deliverables consist of two required surveys which provide basic information on the programs and how grant funds were used. **FY 2021-22 funds cannot be awarded until your court has completed any outstanding deliverables from the prior fiscal year.**

*[i] For the purposes of this RFA, collaborative justice courts are defined as courts that integrate services with judicial case processing, ongoing judicial intervention, close monitoring of an immediate response to behavior, multidisciplinary involvement, collaboration with community-based and government organizations, and function under the 11 key components of collaborative courts as outlined in this application. Examples of eligible courts include adult and juvenile drug courts, adult and juvenile mental health courts, dependency and family law drug courts, DUI courts, elder courts, homeless courts, juvenile delinquency drug courts, peer/youth courts, reentry courts, truancy courts, veterans courts, community courts, girls courts and other collaborative justice programs that have a substance abuse focus. Educational programs such as DUI Court in Schools, Courage to Live, and balanced and restorative justice programs are also eligible.*

## JUVENILE DEPENDENCY DRUG COURT (DDC) AUGMENTATION

An allocation of **at least \$75,000** is available through the Federal Court Improvement Program to support juvenile dependency drug courts that receive SAFG funds. The DDC augmentation is non-competitive and based on the number of anticipated court participants.

### Key Information

- Eligible applicants for this augmentation are California superior courts operating at least one dependency drug court. To receive this funding, dependency drug court programs **must address substance abuse, provide treatment services, and incorporate collaborative justice court principles**. Education only programs are not eligible. Grant deliverables consist of two required surveys which provide basic information on the programs and how grant funds were used.

## Attachment I

### **Judicial Council of California Statement Regarding Models of Substance Abuse Intervention and Collaborative Court Principles**

***Please read and acknowledge this form by signing below.***

1. Collaborative justice courts integrate services with justice system processing.
2. Collaborative justice courts emphasize achieving the desired goals without the use of the traditional adversarial process.
3. Eligible participants are identified early and promptly placed in the collaborative justice court program.
4. Collaborative justice courts provide access to a continuum of services, including treatment and rehabilitation services.
5. Compliance is monitored frequently.

6. A coordinated strategy governs collaborative justice court responses to participants' compliance, using a system of sanctions and incentives to foster program compliance.
7. Ongoing judicial interaction with each collaborative justice court participant is essential.
8. Monitoring and evaluation measures the achievement of program goals and gauges effectiveness.
9. Effective collaborative justice court operations require continuing interdisciplinary education.
10. Forging partnerships among collaborative justice courts, public agencies, and community-based organizations increases the availability of services, enhances collaborative justice court effectiveness, and generates local support.
11. Effective collaborative justice courts emphasize a team and individual commitment to cultural competency. Awareness of and responsiveness to diversity and cultural issues help ensure an attitude of respect within the collaborative justice court setting.

All projects funded in this grant program need to use accepted models of substance abuse treatment and be consistent with these practices.
